PROFESSIONAL SUMMARY

Quality-driven individual with a background in computer engineering and hands-on experience in digital marketing, content strategy, and user engagement. Skilled in building multi-channel campaigns, developing email nurture sequences, and analysing performance data to optimise reach and conversions. Combines technical fluency with creative instinct and a systems-oriented mindset to execute impactful digital marketing strategies across diverse audiences.

WORK EXPERIENCE

Digital Marketing Associate — *Tech Skool* March 2026 – Present

- Designed and executed a multi-channel **content** campaign across LinkedIn, TikTok, and email to drive brand awareness, user acquisition, and cohort enrolment.
- Built segmented email nurture sequences targeting prospective learners at different funnel stages, improving conversion touchpoints from awareness through to sign-up.
- Developed a comprehensive social media strategy and content calendar, anchored in audience behaviour data and optimal posting times for the Nigerian market (WAT).
- Produced a social media analytics report template to track key performance indicators including reach, engagement rate, and follower growth across platforms.
- Conducted competitor analysis and market research to identify positioning opportunities and inform content decisions.

Product/Content Designer — *Climatovate* April 2025 – January 2026

- Led end-to-end website design, managing the full design process from concept through to final deliverables.
- Contributed to design system establishment, defining reusable components and visual standards.
- Supported product brand identity and visual direction within an early-stage startup environment.

Design and Engineering Intern — *NeoCloud Technologies* April 2022 – November 2022

- Contributed to cross-functional team workflows, supporting documentation, planning, and process execution within a structured engineering environment.

EDUCATION

B.Eng Computer Engineering — *Nile University of Nigeria* Sept 2018 – Nov 2023

- Final Year Project: Sign Language Translator — conducted user research, compiled annotated datasets, and presented findings in a formal technical report.
